ABOUT

I am a 21 years old, self-taught, Front-end Web developer, specializing in the JS framework, React.

Though a fresher, I've worked on many projects that included various technologies.
Forever a student, exploring different web technologies and having fun at the same time.

I've a bachelor's degree in Computer Science and Engineering, I am passionate about learning Web technologies, I am a Blockchain, Cyber security, FOSS and Linux enthusiast.

EDUCATION

Osmania University
Bachelor of Science , CS&E

(June 2018 - January 2021)

EXPERIENCE

React Ecommerce
https://github.com/zubayrrr/React_Ecommerce

Made a full-fledged eCommerce application on React that uses Firebase for authentication and Redux for state management.

Gatsby Blog
https://github.com/zubayrrr/zubayrali.in

Built a SPA using Gatsby, a static site generator that uses Contentful as it's CMS, deployed on Netlify.

React Firebase Todo App
https://github.com/zubayrrr/React_Firebase_Todo

A simple yet powerful to-do app built on React that uses Firebase as its back-end.

Vanilla JS
https://github.com/zubayrrr?tab=repositories

I believe in having strong fundamentals when you start learning anything, in a series of Vanilla JS projects, I experimented and explored the vast features that JS has to offer.
